

Burbank School Construction Focus Group
Parents 5/17/16 1:30 pm

Exterior Grounds, Physical Activity, Social Spaces, Outdoor Learning:

- Walking track
- Agricultural area for planting and observing growth; gardens
- Safe playground area

After School Activity and Community Group Use:

- Larger space
- Additional multipurpose room separate from gym
- Space for seating and open areas

Safety, Convenience, and Accommodating All Student Groups:

- Each wing should have locking double doors – auto-locking for lockdowns
- ADA compliant throughout

Technology, Shared Learning Spaces, Classroom Space:

- Standing desks – at least one per classroom with fidget bar
- Giant smart boards in each classroom

Cafeteria, Art Rooms, Bathrooms, Hallways:

- Larger cafeteria
- Accessible bathrooms – adequate space for wheelchairs

Schools/classrooms that would prepare student to be well rounded and prepared for 21st century world:

-

I wish our school had..... I want this one thing to happen:

- Whole side of building for student drop off and pick up
- More storage for teachers
- Outside basketball nets not attached to building or near entrance
- Adequate space for better flow of traffic with buses and drop offs
- Locked off security entrance (holding area)

Burbank School Construction Focus Group
Support Staff 5/12/16 3:30 pm

Exterior Grounds, Physical Activity, Social Spaces, Outdoor Learning:

- Play areas for students
- Grassy field areas
- Planters/garden areas
- Play equipment for recess
- Rubber flooring under any playground equipment or rubber mulch
- Fencing for activities with balls
- Lighting in a shelter/covered area

After School Activity and Community Group Use:

-

Safety, Convenience, and Accommodating All Student Groups:

- More efficient layout for buzzing people in
- Wide enough doorways to accommodate larger kids with wheelchairs and the quantity of students during passing periods
- Hallways wide enough for equipment or removable bar between double doors
- Two way lock on bathrooms in case of emergency

Technology, Shared Learning Spaces, Classroom Space:

- Shared space would be good for students who need a space to work alone for a while without having to leave classroom

Cafeteria, Art Rooms, Bathrooms, Hallways:

- Noise reduction in cafeteria
- Windows in gym

Schools/classrooms that would prepare student to be well rounded and prepared for 21st century world:

-

I wish our school had..... I want this one thing to happen:

- Intercom that has adjustable volume in classrooms and office
- Room on both sides of toilet in health aides restroom in case two people need to help
- More private areas in health aides room for multiple sick students
- Window for health aides office – can open for fresh air – natural light
- Must have bathroom with sink in health aides office and extra sink in office area (2 sinks in health aide office)
- Privacy curtains
- Recommended to have 1 bed per 200 students
- Like Reavis, health aide and nurse have own area and separate room for beds/cots
- Fridge for medications

Burbank School Construction Focus Group
School Relations 5/10/16 3:30 pm

Exterior Grounds, Physical Activity, Social Spaces, Outdoor Learning:

- nature/green area
- safe space outside for EC & Kdg special ed (fences with no openings)
- playground – exercise – park equipment
- courtyard and use w/science standards
- seating in courtyard to accommodate a whole classroom
- walking path

After School Activity and Community Group Use:

- big gym
- cafetorium/stage
- bathrooms that are easy to access from gym or centralized

Safety, Convenience, and Accommodating All Student Groups:

- foyer with window (like Byrd and Fry)
- natural light
- better heating and cooling system
- fence not wall

Technology, Shared Learning Spaces, Classroom Space:

- media center, where kids can work together, computers, books, comfy chairs, bean bags
- basic library, no need for huge cathedral ceilings
- study carols
- classrooms should have walls, maybe moveable
- still have offices or spaces for specials teachers
- special ed shared area for ot, speech, etc.

Cafeteria, Art Rooms, Bathrooms, Hallways:

- Kdg have own bathroom or strategically placed
- wide hallways
- big teacher's lounge to accommodate all staff
- if food preparation then better exhaust system
- girls bathroom should have 6 or more stalls
- boys bathroom should still have few stalls, seem to us stalls instead of urinals
- sink in primary classrooms
- solid wall space in classroom
- accessible and easy to open windows
- built to house more enrollment, if needed
- science/art lab

Schools/classrooms that would prepare student to be well rounded and prepared for 21st century world:

- interactive whiteboards

I wish our school had..... I want this one thing to happen:

Burbank School Construction Focus Group
Support Staff Relations 5/10/16 3:00 pm

Exterior Grounds, Physical Activity, Social Spaces, Outdoor Learning:

- Courtyard with access from outside of building
- Outside storage space
- Benches in courtyard
- Low maintenance landscaping
- No brick pavers – they sink
- Picnic tables
- Shady areas
- Outdoor classroom space that could accommodate at least 25

After School Activity and Community Group Use:

- Large enough to host district wide activities
- Restrooms in area
- Blocked off so they don't wander around building

Safety, Convenience, and Accommodating All Student Groups:

- Elevator
- Ramps
- Bus drop off
- Parent drop off area

Technology, Shared Learning Spaces, Classroom Space:

- Library near tech lab
- Teacher access to overhead projectors / media in classroom
- Extra small conference rooms for meetings and small students groups

Cafeteria, Art Rooms, Bathrooms, Hallways:

- Separate cafeteria from gym
- Tables that can be moved and stored
- More bathrooms
- No locker room for K-6 building
- Sinks in art rooms; dedicated art rooms

Schools/classrooms that would prepare student to be well rounded and prepared for 21st century world:

- Every classroom would have own cart of laptop computer
- Versatile space
- Multiple seating arrangements; tables instead of desks
- Place for students to sit on ground, carpeted areas

I wish our school had..... I want this one thing to happen:

- More storage in office and throughout building
- Classroom storage
- Sinks in classroom
- Storage for subs and temp employees

Burbank School Construction Focus Group
Select Teachers 5/9/16 3:30 pm

Exterior Grounds, Physical Activity, Social Spaces, Outdoor Learning:

- Courtyard with accessibility and without disrupting other classes
- Courtyard used for classes as well
- Covered area outside
- Low maintenance landscaping
- Adequate grass space for playing
- Playground
- Smooth, level lawn area
- Curb appeal to attract families to area
- Ample parking not attached to playground where kids have recess to account for extra people parking for events (parking should be separate from recess area)
- Plan for drop off and pick up
- Proper drainage in field
- Some fencing to prevent balls flying out of area or people cutting through school property
- Wood floor in gym
- Rounded architecture outside

After School Activity and Community Group Use:

- Place for shows, plays, debates, plays (like a theater) separate from gym
- Theater/cafetorium/MPR
- Restroom located nearby
- Contained area so that groups are blocked from rest of building

Safety, Convenience, and Accommodating All Student Groups:

- Big clean-up of debris after construction
- Secure area for deliveries/truck loading away from students
- Ramps
- School built a distance from sidewalks
- Emergency closing doors that can be locked

Technology, Shared Learning Spaces, Classroom Space:

- Collaboration
- Sliding barn doors that open to larger spaces
- ELL/Resource students could feel more included if they are pulled out in a room connected to classroom (still a connection to the class)
- Sinks in common shared areas
- Area for storing and working on larger projects
- Music and art could take advantage of the collaborative spaces
- Noisy classes in one wings; acoustical material that keeps noise down as well
- Separate room for art and music
- Specialized acoustics for band room
- All teachers have access to smart boards

Cafeteria, Art Rooms, Bathrooms, Hallways:

- Accessibility to media/sound system in gym
- Easy access to electrical outlets
- Efficient storage
- Restroom for handicap student needs/multipurposes
- Boys and girls bathroom in same area so one teacher can take class out and see both
- Locker cubbies with shelf above for book storage to relieve desk space
- Tables better than desks; promotes discussion
- Alternative seating options for students in classroom
- Natural light

I wish our school had..... I want this one thing to happen:

- Outdoor learning space
- Accessibility for all teachers and students; welcoming environment
- More green and energy efficient
- Heating/air controls that teacher can have some control in adjusting
- Low noise with heating and air equipment

Burbank School Construction Focus Group
Burbank PFC 5/5/16 6:00 pm

Exterior Grounds, Physical Activity, Social Spaces, Outdoor Learning:

- Glass
- Playground
- Area for buses, separate from traffic
- Better student pick up drop off areas
- Walking path
- Outdoor classroom area with covered space, table and chairs fastened to ground
- Soccer field
- Garden area that teachers could use for lessons on planting
- Greenhouse for year round gardening
- Bump out for drop off of students
- Shelter area for kids waiting for buses or parents to pick them up

After School Activity and Community Group Use:

- Swimming pool

Safety, Convenience, and Accommodating All Student Groups:

- Cameras
- Locked classroom doors
- Buzzing in
- Tornado shelter
- Secure access to elevator
- Main office adjacent to Gym/MPR
- Lockers preferred over cubbies for all grades / divided space

Technology, Shared Learning Spaces, Classroom Space:

- Computer lab for group work
- Larger classrooms
- Group grade level classrooms together
- Noisy classrooms on one side of building and classrooms on another
- Eliminate traditional desks; have movable tables for collaboration
- More open space to work together
- Options to collaborate with other classes

Cafeteria, Art Rooms, Bathrooms, Hallways:

- MPR/Gym with removable wall
- Larger lunchroom
- Larger music room and band room
- Conference room
- Bright and sunny meeting room
- Project room
- Storage space for PFC adjacent to Gym/MPR
- A room for messy activities: exploring, science experiments, art projects, etc.
- Plan for increase in enrollment in case you need four sections of one grade
- Common area for each grade level

- More natural light
- No entrance door to bathroom; easier access for handicap
- Cafeteria large enough to accommodate all students to have longer time to eat
- Collapsible lunch tables – fold into wall
- Cafeteria to be used for multi-purposes
- Library with computers and individual study spaces/work rooms
- Relaxed seating areas for library like Ben Carson rooms
- Kindergarten rooms with bathroom and sink

Schools/classrooms that would prepare student to be well rounded and prepared for 21st century world:

- Smartboards; Wifi; more technology; touchscreens
- Easily moveable furniture
- Stations to accommodate different seating options or standing work spaces
- Alternative seating like bean bag chairs, more modern furniture

I wish our school had..... I want this one thing to happen:

- Air conditioning
- Clean water
- Bigger gym
- Lunchroom separate from gym
- MPR/Gym connected but separate like Liberty
- Limestone deco incorporated in new design
- Keep graduation photos from past classes
- Display cabinets in foyer: different ones for historical, PFC, artwork, etc.

Burbank School Construction Focus Group
Superintendent's Advisory Council 5/2/16 6:00 pm

Exterior Grounds, Physical Activity, Social Spaces, Outdoor Learning:

- Functional
- Benches
- Bike racks
- Courtyards
- Walking path with benches & exercise machines
- Parking close to entrances and activity areas
- Younger kid playground in back or side of building (not viewable from street)
- Fenced – not chain linked, more decorative, controlled areas for outdoor PE, recess
- Outside intercoms

After School Activity and Community Group Use:

- Lock up remainder of building
- MPR, Gym
- Accessible from outside
- Accessible for parents to drop off and pick up
- Option to open wall between gym and cafeteria

Safety, Convenience, and Accommodating All Student Groups:

- Tornado/severe weather shelter

Technology, Shared Learning Spaces, Classroom Space:

- Wireless
- Less dedicated/more portable technology
- Accessibility/reliability

Cafeteria, Art Rooms, Bathrooms, Hallways:

- Large as possible
- Plan for future
- Wide hallways
- Multiple entrances/exits
- No doors to washrooms

Schools/classrooms that would prepare student to be well rounded and prepared for 21st century world:

- Differentiation
- Technology access
- More positive reinforcement, less negative
- Team work; collaboration
- Accustomed to cultural diversity
- Ability to listen to each other

I wish our school had..... I want this one thing to happen:

- Group seating; less individual desks

Burbank School Construction Focus Group
Student Advisory Council 4/27/16 6:00 pm

Exterior Grounds, Physical Activity, Social Spaces, Outdoor Learning:

- Benches
- Baseball field
- Park; playground equipment

After School Activity and Community Group Use:

- Basketball court
- Baseball field
- Soccer field
- Walking path/track

Safety, Convenience, and Accommodating All Student Groups:

- Security cameras
- Restrictions for students outside; clearly defined separation between bus/parent drop off/student areas
- Fences around field behind nets to prevent balls from going into street
- Dedicated bus area

Technology, Shared Learning Spaces, Classroom Space:

- Science lab
- Dedicated Band and Music Rooms

Cafeteria, Art Rooms, Bathrooms, Hallways:

- Stage for assemblies and plays
- Can't see in bathroom from hallway

Schools/classrooms that would prepare student to be well rounded and prepared for 21st century world:

- More technology
- Wireless internet throughout building
- Laptops

I wish our school had..... I want this one thing to happen:

- More updated textbooks

Burbank School Construction Focus Group
Burbank School Staff 4/27/16 3:00 pm

Exterior Grounds, Physical Activity, Social Spaces, Outdoor Learning:

- Courtyard/area with benches; round space so kids can face each other
- Garden
- Playground
- Open field area
- Adequate parking for events
- Basketball hoops not against school

After School Activity and Community Group Use:

- Baseball field
- Soccer field
- Multipurpose room / dividable room
- Basketball nets that go up
- Stage
- Theater
- Fields all on same side of building as multipurpose room
- Accessible bathrooms
- Fans in bathrooms
- Sensory room for physical/occupational therapy

Safety, Convenience, and Accommodating All Student Groups:

- One level or elevator

Technology, Shared Learning Spaces, Classroom Space:

- Resource/ELL could have open walls
- Computers in classrooms or in common area / carts
- Equal tech for all classrooms
- Interactive white boards/Smart boards/White boards that are portable
- Science lab for all grade levels
- Band room that could fit 120 people with storage
- Louder classes in one area of building
- Library and computer lab combined
- Windows in all classrooms for natural light
- Conference rooms near offices of service staff
- Tornado safety space
- Concern with lockdowns and lots of windows

Cafeteria, Art Rooms, Bathrooms, Hallways:

- More stalls in bathrooms
- Fans
- More teacher bathrooms throughout building
- Bathrooms not in main hallway for passing
- Traffic flow – more ways to get to same place
- Bathrooms in Kindergarten classrooms
- Entry doors with less glass

- Water bottle water fountain
- Automatic dryers instead of paper towels in bathroom
- Sanitizer foam
- Bathroom specifically for students who need bathroom help by aide
- Bathrooms that accommodate multiple needs: changing table, family bathroom, unisex
- Possible floor to ceiling stalls for more modesty and multi-purposes

Schools/classrooms that would prepare student to be well rounded and prepared for 21st century world:

- Phones in each room
- Tables instead of desks; promotes collaboration
- Taller desks for students who may want to stand instead of sit all day
- Flexible furniture that could go up or down based on students preference
- Book shelves functional for staff and students – not too low and not too high
- Lockers without doors/cubbies to store coats, bag, and lunches

I wish our school had..... I want this one thing to happen:

- Lounge for staff that all employees could fit in at same time
- Kitchen for real trays instead of disposable trays
- Dual space in library where teacher could bring class down even if library teacher has a class going on
- One smart board per grade level – in shared space if possible
- Interactive touch screens with info in main areas
- Health aide office near but not in main office for privacy
- Character to exterior
- Playground like Maggie Daley Park
- Exterior entrance to or near band room

Burbank School Construction Focus Group
AERO/Reavis 4/21/16 9:00 am

Exterior Grounds, Physical Activity, Social Spaces, Outdoor Learning:

- Adaptive playground equipment
- Space to run around
- Walking paths accessible

After School Activity and Community Group Use:

- Survey groups for needs
- Plan to open later at night for community group

Safety, Convenience, and Accommodating All Student Groups:

- Multiple entry points to avoid congestion
- Dedicated bus lanes

Technology, Shared Learning Spaces, Classroom Space:

- Wireless
- Chromebooks, no textbooks
- No computer labs...entire building is a computer lab, every student will have own device
- Adequate space for IT dept.
- Monitors/screens for announcements throughout building or just common areas
- Classrooms large enough to accommodate future programs, special education, etc.
- Spec ed rooms should be same size as gen ed.
- Grade level pods, gathering center, common center, space for storage, collaboration, RTI groups, pullout groups
- Space for IEP conferences and Occupational, Physical, and Speech Therapy space
- Teacher work spaces
- Windows; natural lighting
- Lighting – dimmers (especially for special ed)
- Motion sensors on lighting; LED

Cafeteria, Art Rooms, Bathrooms, Hallways:

- Tables hidden in walls if used as multipurpose room
- Revamp locker rooms (eliminate wasted shower space)
- Mens, womens, changing rooms as opposed to open changing areas
- Accommodations for more privacy and modesty
- Family/unisex/transgender restroom
- Make cafeteria a multipurpose room
- Auditorium/theater for fine arts – for district wide use, possible graduation
- Nice space for teacher/staff lounge – shows appreciation – encourages teachers to eat together rather than in classrooms

Schools/classrooms that would prepare student to be well rounded and prepared for 21st Century world:

- Safety features, planning entrance for visitors
- Exterior is important to attract students and families; building should appeal to the community; wow factor without going overboard; curb appeal

Burbank School Construction Focus Group
Custodial/Maintenance Department 4/20/16 1:00 pm

Exterior Grounds, Physical Activity, Social Spaces, Outdoor Learning:

- Courtyard use, maintenance nightmare
- Playground over a playground, liability,
- Usable field/green space

After School Activity and Community Group Use:

- Baseball fields, soccer fields,
- Washrooms than can be accessed externally with the ability to be locked
- Access to gym from outside, restrict access to rest of building

Safety, Convenience, and Accommodating All Student Groups:

- Elimination of keys to classrooms
- Access to gym from exterior door

Technology, Shared Learning Spaces, Classroom Space:

- Computer labs obsolete
- Areas to relax like the Ben Carson room

Cafeteria, Art Rooms, Bathrooms, Hallways:

- Dedicated cafeteria
- MPR with stage (maybe stage not needed?) storage space attached to cafeteria for chairs and tables
- Washroom storage in larger washrooms for supplies
- Hand driers
- Bradley sinks not durable
- Library usage, it space necessary?
- Wider hallways
- Are lockers needed?

Schools/classrooms that would prepare student to be well rounded and prepared for 21st century world:

- Smartboards
- Are smart boards needed?

I wish our school had..... I want this one thing to happen:

- Dedicated cafeteria
- Garage for custodial and maintenance supplies, accessible from outside
- Main entrance security, traffic flow better in schools
- Door release from office to school
- Good flow of entire buildings

Other Comments:

- Storage space – useful
- Parking lots designed for snow removal, curbs, area to push snow
- Flooring materials that don't need wax, longevity

- Furniture with wheels, feet, etc., how that affects floor
- Carpeting in appropriate areas
- Incorporate bulletin board type material into walls, dedicated spaces on walls for stuff
- Non-painted walls behind toilets like ceramic tile, glazed block
- Wall mounted toilets, mopping underneath, etc.
- Large windows for natural lighting
- Classroom size

Burbank School Construction Focus Group
School-Community Partnerships 4/19/16 2:00 pm

Exterior Grounds, Physical Activity, Social Spaces, Outdoor Learning:

- Wide hallways
- Spaces to gather
- Basic libraries are obsolete, more open
- Student common areas
- Open space
- Lot of light
- Moveable, portable furniture
- Field houses for athletics
- Outdoor learning center
- Sustainable landscaping; sustainable community
- Teaching students about importance of sustainable lifestyle

After School Activity and Community Group Use:

- Community space to rent
- Comfortable safe place for students
- Athletic facility open to community...memberships for after school hours; revenue generating
- Daycare

Safety, Convenience, and Accommodating All Student Groups:

- Secure entrances
- Buzzing in, scanning ids, police alerted when needed
- Security cameras, police access

Technology, Shared Learning Spaces, Classroom Space:

- Wireless internet throughout
- Textbooks online
- Laptops, tablets for students

Cafeteria, Art Rooms, Bathrooms, Hallways:

- Good flow, organization
- Scheduling students accordingly
- Communicate with students during passing periods
- Art in hallways
- Music piped in during passing periods

Schools/classrooms that would prepare student to be well rounded and prepared for 21st century world:

- Do math without calculator
- Write in cursive
- Telling time from on-digital clock
- Respect for others
- Social skills
- Work ethic

- Young workers are easily stressed right now
- Communication skills
- Contribute to positive environment
- Presentation skills
- Critical thinking skills
- Independence; finding a solution on your own
- Fun day at school
- Common decency
- Basic life skills
- Common ground between the variety of cultures

I wish our school had..... I want this one thing to happen:

- You can't duplicate every building so if you have the opportunity to have something new at Burbank School it can be opened up to all the students.
- Look up and out and ahead. Everybody is facing down hunched over a phone right now.

Burbank School Construction Focus Group
Curriculum Council 4/18/16 3:30 pm

Exterior Grounds, Physical Activity, Social Spaces, Outdoor Learning:

- Playgrounds, outdoor learning, gardens, tree stumps to sit on, walking trail (like McCord) athletics spaces, roof gardens, gazebos, native plant areas, sensory play area, bins: bark, rocks, feathers, sand.
- Outdoor covered learning space with shade and tables, butterfly gardens, stepping stones

After School Activity and Community Group Use:

- Garden clubs
- Safe areas with limited access for other groups
- Theater space
- Community involvement

Safety, Convenience, and Accommodating All Student Groups:

- Ease of access for disabled
- Large spaces for lunch, assemblies
- More bathrooms
- Space for grade level collaboration/teamwork/co-teaching

Technology, Shared Learning Spaces, Classroom Space:

- 1:1 devices
- Large table area/work area other than desks
- Floor space
- Allow students to choose a work area

Cafeteria, Art Rooms, Bathrooms, Hallways:

- Separate space so lunch and gym do not conflict
- More girls bathrooms
- Unisex bathrooms

Schools/classrooms that would prepare student to be well rounded and prepared for 21st century world:

- Technology, smartboards, skype, virtual learning, virtual fieldtrips
- Real world- relevant authentic learning opportunities
- Space for staff to collaborate
- Different desks, expandable walls, open spaces, flexible seating, large tables
- Science labs.

I wish our school had..... I want this one thing to happen:

- Tobin - Grass space for play other than blacktop or a wet retention pond.
- Outside activity space.
- Plan for future technology, plumbing, wires, walls.

**Burbank School Construction Focus Group
Leadership Team 4/14/16 9:00 am**

Exterior Grounds, Physical Activity, Social Spaces, Outdoor Learning:

- Playground
- Green space, grass, flowers, trees, benches
- Fields for soccer and baseball, no nets, but back stops
- Low maintenance

After School Activity and Community Group Use:

- Multi-purpose rooms
- Dividable rooms

Safety, Convenience, and Accommodating All Student Groups:

- Fewer windows, or planned strategically
- One level

Technology, Shared Learning Spaces, Classroom Space:

- Wireless
- Are they really used?
- Paradigm shift; huge cultural move to use those new learning spaces appropriately

Cafeteria, Art Rooms, Bathrooms, Hallways:

- Scheduling
- Dedicated lunch room
- Dedicated art room with sink
- Water sources in other classrooms as well
- Restroom in classroom

Schools/classrooms that would prepare student to be well rounded and prepared for 21st century world:

- Technology
- Flexibility to adapt to what future will bring

I wish our school had..... I want this one thing to happen:

- School is big enough
- Leave green space
- Enough parking
- Parent drop off/pick up
- Quiet space

Burbank School Construction Focus Group
Principals 4/7/16 12:45 pm

Exterior Grounds, Physical Activity, Social Spaces, Outdoor Learning:

- Playground – health & wellness; swings, slide, nice mulch area, place for younger kids
- Climbing wall
- Maintenance free
- Open to public or fenced?
- Sturdy
- Science activities outside
- Playground for younger kids and something else for older kids like outdoor volleyball court
- Large open spaces for kids to do a variety of things
- Area for sitting, reading, drawing
- Smallest possible retention pond

After School Activity and Community Group Use:

- Bathroom off gym so they don't have to roam building
- Door directly to gym
- Some way of communicating with custodian – buzzer/bell
- No bleachers for community use
- Sign off that building left in good condition
- Cameras to monitor
- Stage
- Blockade use of stage for community groups (lockable/restricted)
- Possible fixed wall in front of stage
- One classroom near gym and bathroom in case group needs classroom
- Water fountains intended in wall in gym so no one needs to leave gym for drinks
- Access to kitchen?

Safety, Convenience, and Accommodating All Student Groups:

- ADA compliant
- One level
- Elevator lift for stage
- Traffic
- Drop off/pick up
- Handicap parking
- Traffic/parking committee
- Police involved in traffic plan and supportive of it
- Classroom doors that lock from inside
- Make sure sounds system works in every space/cut off switch for music when emergency announcements are made. If PA activated, everything else shuts off.
- Flashing lights to indicate lockdowns
- No blind spots with security cameras
- More security cameras outside
- Windows as escape routes
- Phones in classrooms

Technology, Shared Learning Spaces, Classroom Space:

- Space for laptop carts/lockup
- Think to future: electric access for future
- Every area is a learning space: hallways, common areas, etc.
- Tables instead of desks
- Hotspots everywhere, no dead areas
- Every child should have own computer
- Place for parents to access computers

Cafeteria, Art Rooms, Bathrooms, Hallways:

- Gym separate from cafeteria; too much time for cleaning after lunch and setup
- Dedicated Music and Art rooms – storage issues
- AERO needs special toileting equipment / maybe separate area for toilet issues requiring aide
- Faculty Restrooms
- Room for band lessons – sound proof/isolated
- Noisy classrooms on one side of buildings
- More classrooms than previous building
- Storage

Schools/classrooms that would prepare student to be well rounded and prepared for 21st century world:

- More freedom, flexibility with learning spaces
- Maybe not classrooms, but spaces
- Automated everywhere
- Access for learning internationally, regionally, locally, sisters schools, Facetime on computer to work on projects together
- Distance learning – connect kids to and from other schools with video conferencing
- Learning resource, Speech, SW, ELL in flowing area.
- Special services in common area with conference room nearby.
- Maybe more than one conference room.
- Big enough rooms to accommodate flexibility
- Storage and area for PFC

I wish our school had..... I want this one thing to happen:

- Historical artifacts from current building
- Technology capacity
- Save the trees
- Outside as appealing as inside
- Benches outside
- Drop off near door
- Plenty of exits to designate doors for grades – less traffic one spot
- Space for in school suspension or other issues
- Escape door in principals' office

Burbank School Construction Focus Group
PFC Council 4/6/16 9:00 am

Exterior Grounds, Physical Activity, Social Spaces, Outdoor Learning:

- Running/Walking Track
- Outdoor seating with park pavilion / sun shade
- Multi-use areas: sports, playground for younger kids, classroom setting
- Use during the school day and for community to use outside of school hours
- Playground/PE equipment – balls shooters or basketball nets for example

After School Activity and Community Group Use:

- Multi-purpose room/extra gym/general meeting room
- Not a classroom
- Space for meetings, activities, sports
- Indoor Pool

Safety, Convenience, and Accommodating All Student Groups:

- Accessibility, ADA Complaint, students with temporary disabilities currently have problems

Technology, Shared Learning Spaces, Classroom Space:

- Computer Lab
- Multi-media room
- Smartboards
- More High Tech Equipment – kids attracted to technology related stuff
- Textbooks online – parents able to see what is taught in school – teacher lesson plans online for parents to see
- Electronic books – same as hard copy
- Health issues with Wi-fi (proven harmful in Europe)

Cafeteria, Art Rooms, Bathrooms, Hallways:

- Separate cafeteria from gymnasium – too much time for clean up before gym class
- Sometimes PE teacher is stopping class early to take down volleyball nets to get ready for gym
- Cafeteria could be MPR
- During indoor recess, separate gym would be great
- Dividing wall ok like Liberty
- Art and music should be separate rooms – no sharing, storage for supplies and instruments
- Kids work can stay and have drying racks
- PFCs can set up book fairs and Santa Shop to stay up if there is a designated room
- Concerns with specials getting cancelled or moved due to other events going on that day
- PFC Room
- Storage Room for PFC
- Functional restrooms
- Hallways wider to accommodate for kids during passing periods
- Lockers built in to keep hallways open
- More stalls – more than three – lines longer after lunch

- Too much time waiting in line
- Trough sinks ok
- Paper towels – quicker than dyers

Schools/classrooms that would prepare student to be well rounded and prepared for 21st century world:

- Take home options for kids who do not have computers at home – laptop/tablet
- Art & Music have been suppressed – important for brain development
- More Fine Arts – with technology
- Reading and Math is focus and everything else is pushed aside right now
- STEM? Less in science, history and social studies right now
- Science Lab open for all grade levels
- Not all sitting desks, maybe standing desks, ability to move around more versus sitting all day
- Teachers need to stay focused, communicate in groups, more kids graduating without communication skills, speaking to humans, need to talk, communicate, and socialize without technology. Not everything electronic.

I wish our school had..... I want this one thing to happen:

- Safety – wish our school had bullet proof glass, super locks, only fire escape doors around perimeter
- Tornado shelter/basement area – Per Brian – now mandated with new construction
- Classroom space to accommodate the number of students enrolled; space to maneuver
- All weather – waiting place for kids upon arrival and dismissal
