

*Parent Curriculum Night
Tuesday, December 6, 2016*

Carnegie Learning 

Join representatives from Carnegie Learning and the Curriculum Department as we dive into how students think, learn and apply new knowledge in math! Parents and community members are invited to attend this evening's discussion focused on our new 6th, 7th and 8th grade math program, Carnegie Learning. This session will focus on this innovative, research-based math curricula, Standards for Mathematical Practice and why math looks so different (but truly isn't!). Students are encouraged to attend with their parents.

Stress and Children: Creating a Calm Environment

In today's rapidly changing world, children face unique social and emotional challenges. Many children feel increased stress and anxiety. Educators and parents can assist students in developing a life-long capacity for concentration, patience and resilience. Professional staff from Sertoma Center will provide parents with the tools they can use to empower their students to engage in techniques to relax their minds and calm their bodies.
